# G12T-75

Heralding a new era of high power loudspeakers when it was first introduced, the G12T-75 is seen by many as the ultimate incarnation of the original Celestion G12M model – a Greenback on steroids! With its aggressive and spiky tonal qualities, the G12T-75 has featured extensively in cabinets like the legendary Marshall 1960.

The best selling guitar speaker of all time, the G12T-75 is in fact remarkably versatile, staying clean at thunderously high volume levels. But it's in rock and metal that this speaker has really made its mark, with an emphasis on huge bass, relaxed mids and vibrant highs.
